I wanted to say thank you for everything that you are doing. It really made my Christmas something special when I received the box that CHRISTMAS FOR OUR TROOPS sent. I thought it was going to be an everyday usual day again today and when I received this box and opened it up my eyes lit up. The things we do here are meaningless unless we have the support of those back home. A lot of people use the words HERO when describing us Marines. However, I want you to know that the box's that you send bring back the morale that a lot tend to lose here. The things you are doing and the support you are giving definitely make what you are doing HEROIC. SO once again I would like to say thank you and let you know that you have made my Christmas.
