Scott,

I received a package from your wonderful organization today and it literally brightened my day beyond what I thought possible. Things have been especially hard over here the past few days and this was just the bright spot I needed to pick my spirits back up. I Can NOT thank you enough for it, it really meant a lot to get a package that it was clearly evident some total strangers not only knew what would be useful but also that they cared enough to take the time. Again I thank you so much for doing this and when I get back I will remember this next Christmas. Thank you

V/R
