Mr. Scott,

My unit recently received several boxes from your organization. I would like to thank you and all of the Christmas For Our Troops volunteers for the time and resources put into your project. I know that we are thought of and prayed for by many good people back in the States, but to receive a box of that love goes a long way. I myself have a wife, two boys and one on the way back home waiting for me. It's good people and organizations like yours that assures me that even though I am away from my family there are plenty of good people with good hearts doing great things back home. Thank you again for your time and your love. Merry Christmas and God bless!
