To everyone who may read this,

Thank you for sending the care packages that you sent out to all of us here in Afghanistan. I am stationed at Sharana and received a box yesterday. I just got a chance to open it today. At first we received about four boxes and kind of split them up between us all, then the very next day we received more than enough for us all to have one and even deliver some of the extras out to other Soldiers.

You couldn't have put together a more useful assortment of stuff, I really enjoyed opening the box and seeing all of the items carefully packed for someone like me who you may not even know.

I can't say thank you enough. It's amazing how much support we have here from back home. This is my 3rd deployment and I couldn't have picked a better career than this. I truly enjoy the Army and am humbled everyday by just how much support there is for the military from back home. On behalf of C Co. 2-149 GSAB and all of the military service members across the globe, Thank You.

Very Respectfully,
CW2 Brian Thacker
