Good morning everyone,

I do hope all is well! I received a package from you all today and let me say how very thankful and appreciative I am of it. The thought of people of every age and gender coming together to make our day that much better just warms my heart. It's a great feeling to know that people we have never even met still think of us during the holidays and put us in their heart and prayers. I thank you SO much! My name is Erica and I am 22 years old. I came out here with 8 of my brothers, yes I am the only female that came out with my small platoon. This is my first deployment and I must say being away during the holidays does get to me sometimes but honestly, I would NEVER trade this in for the world! I love being here with my family, we made the very best of Thanksgiving and we'll do the same for Christmas and New Years. Don't ever take anything for granted, appreciate everything you have, that's one thing I've definitely learned being in the military. I've learned to appreciate everyone and everything so much more and I'm so glad I learned it now rather than later when it'd be too late. I hope you all have a wonderful Christmas and New Years! We love and appreciate you all, thank you so much for everything you do!!
