Merry Christmas,

We appreciate all of the gifts that you send to deployed units. We especially love the knives that your company sent. Within a few months, my unit will be leaving from deployment and a lot of my Marines want to take their knives back to the U.S. however in order for us to transport the knife back to the U.S. I need a part number, serial number, or some type of information so I can find the correct information for the knives. At your earliest convenience, can you please assist me in the right direction?

Thanks in advance

R/S
